

Peopletracer DR10 Data Removal Request

We've received a data removal request from you and are happy to undertake your instruction. However, if we do completely remove your details from our database and you fail to opt-out of one of our data collection sources in the future your details may re-appear on our website.

Therefore, we can offer you two options:

- A) Full removal from our database as per Section 10 of the Data Protection Act 1998 - we will fully remove your details from our database. However, your details may re-appear on our websites should we receive a new record of your name and address; with no record of your details we are unable to suppress them from re-appearing.
- B) Removal of your details from our websites and retention of your details within our database. This allows us to suppress your details from appearing on our websites now and in the future. Personal details will be used for no other purpose.

Surname: _____

Forename(s): _____

Full Address: _____

Postcode: _____

Removal option (please tick): A B

Signed: _____

Date: _____

Please return this form preferably by recorded or special delivery to:
